

BEST in Akureyri Hospital

How has the BEST training improved the response and treatment of trauma patients in our Hospital?

- Increased our awareness on how to improve our process and procedures
- Established trauma team, members roles and when the team needs to be activated
- Ongoing training on team work and communication

BEST – Plans for the future

- BEST trauma workshops, 3 times/year in the ER
- Applying BEST theories and procedures to other ER patients such as:
 - Resuscitation/CPR
 - MI
 - Stroke
- Introduce and train other healthcare centres and hospitals in Iceland on BEST practises

**With great appreciation and best regards
from Akureyri!**
